CHILD HEALTH

Here at Ocean Wave Medical we have experienced female and male Doctors and Nursing staff that can support you in keeping your child well. **All children 15 years and under will be bulk billed 7 days a week if current Medicare card.**

New babies are welcome for their baby health checks where regular weigh and measures are done.

Children are susceptible to a range of illnesses, and by immunising your child against these illnesses is the best way to keep them well.

Immunisations - Ocean Wave Medical offers a full childhood immunisation program with a computerised recall system to remind you when they are due. All vaccines are stored on site in a secure vaccine fridge. When booking for childhood immunisations we allocate two Nurses as a team to do the immunisation. This ensures your child's experience is less distressing.

School based catch up immunisations can also be arranged by contacting us.

Travelling Overseas – Check with your Doctor whether your child is covered for the country you will be visiting or whether other Travel Vaccines are required. Most travel vaccines are carried in stock.

Ocean Wave Medical offer treatment for all types of children's health including, upper respiratory tract infections, viral gastroenteritis, ear infections, urinary tract infections, Asthma & eczema and much more. Our Nursing team are here to assess your child on arrival ready for your Doctor, so call our Receptionists with any concern and we will arrange an appointment.
